Не можу дати скріни тестів, бо дз самбітнута, значить, тести пройшло))))

The screenshot displays the Codewars profile of user DaraKolm. The profile header includes a 6 kyu rank badge, the username 'DaraKolm', and statistics: 179 solutions, 0 following, 0 followers, and 0 allies. It also shows the user's name as 'Unknown', clan as 'Unknown', and membership since October 2023. Below the header, there are promotional banners for earning honor and a hackathon. The main section is titled 'Completed (10)' and lists four solutions with their respective kyu ranks, star ratings, completion counts, and the languages used.

Solution Title	Kyu Rank	Stars	Completion Count	Completion Percentage	Completion Count	Author	Languages
The Greatest Warrior	4 kyu	651	133	93% of 570	3,037	BurstNova	JS, C#, TS, Python
PaginationHelper	5 kyu	1657	314	81% of 3,153	34,314	jhoffner	JS, C#, TS, Python
Vector class	5 kyu	563	122	88% of 822	7,303	eugene-bulkin	JS, C#, TS, Python
Vigenère Cipher Helper	4 kyu	787	130	90% of 978	7,285	jacobb	JS, C#, TS, Python

JavaScript Solutions for Vigenere Cipher Helper

DESCRIPTION:

Create a class called `Warrior` which calculates and keeps track of their level and skills, and ranks them as the warrior they've proven to be.

Business Rules:

- A warrior starts at level 1 and can progress all the way to 100.

Don't let layoffs scare you. Landing a job in tech is still well within your reach.

CONTRIBUTORS

Good habits form great programmers. Read on for tips on how to maximize your routine.
